**Secondary Contact:** Jason Holden, Shipping and Receiving Mgr  
**Email:** [jason@wolverineplating.com](mailto:jason@wolverineplating.com) **Phone:** (586) 771-5000 ext 214

### Current Status:

Wolverine Plating is now operating at its traditional normal schedule, Monday through Friday, and will operate on Saturdays as needed based on customer needs. Shipping and Receiving will be operating all five days - Monday through Friday from 7:00 am to 5:00 pm, and Saturday if we are open (Customers should always confirm Saturday shipping or receiving).

Please note that advanced lead times are critical to ensuring we can meet customer needs, and much appreciated as we continue to work in these unusual times.

Wolverine Plating has been monitoring the situation through the U.S. Center for Disease Control (CDC). In order to minimize the chance of being infected by, or spreading, COVID-19, Wolverine Plating has instituted the activities recommended by the CDC including daily employee health screening, wearing masks, adhering to social distancing protocols, practicing enhanced personal hygiene and enhanced facility cleaning/sanitizing. We also continue to limit access to our facility to only essential business.

We have been in contact with our supply chain partners and do not anticipate any problems in meeting our customers' needs.

Thank you for your understanding, support, and patience during this difficult situation. We greatly appreciate your help as we work together to navigate these unusual times.
